NEW YORK, November 18.-The movement towards recovery in prices of stocket, which was distinctly indicated in the later dealings of yesterday, made further was not large, and conspicuous movewhich have been favorites in the specu-Intion. A demand from unconvered shorts was an obvious factor in the recovery-The light demand was made effectly through the falling of in the preseure o sell which was in evidence yesterday from speculative nolders on margin. There was mann lass? alling of loans to-day and less difficulty in securing tresh accommendation. TWO SMALL BREAKS

With larger receipts and somewhat more active demand, there was better business on the wholesale produce and fruit market yesterday. There were larger receipts of vegetables than for several days and cabbage, potatoes, turnips, onions, sailed and other seasonable truck were plentiful. Receipts of chickens were also large, and the abundance of game is still keeping the demand and the prices for fowis curtailed. The continued scarcity of eggs is beginning to puzzle the commission men and the egg merchants, per dozen in crute lots.

Receipts of fruits were large, with no changes in prices.

Only two small sales yesterday reminisiend the market is all open. The two sales were at Crenshaw's and Shockoe ware houses, and aggregated only about 10.00 pounds. It is likely that the breaks will show no increase until there is a "season." All the sun-cured tobacco in the countries round about is hangling on the strips in the barn, as dry as a powder horn, awaiting a handling season before it can be brought to market. When the season does come the warehouse floors will be overflowing with the weed every day for some time to follow. The sales to-day if there are any, will run as follows. First at Shockoe, second at Stonewall, third at Shelburne's, and fourth at Crenshaw's.
